The (Whats the story?)

MAMMOTH MARGARITA

We don't have a "house" margarita. Most restaurants use cheap tequila that is only 51% Agave and other ingredients to give the appearance of quality but really are cause for a headache! We use only 100% Agave Reposado Tequila in our Mammoth Margarita featuring the #1 selling brand in Mexico, el Jimador™.

Gentle flavors from barrel aging Tequila compliment our Mammoth Margarita™ blend which features several unique proprietary ingredients. We prepare the Mammoth Margarita here in large containers and then stage it under continuous agitation until served cold blended or on the rocks.
